IAFT® NEWSLETTER

A monthly newsletter brought to you by Rapid Resources for Families

RRFF IAFT Annual Event

Thank you to everyone who was able to attend the Annual Event. We truly enjoyed seeing everyone and getting an opportunity to share IAFT® outcomes. We want to incorporate your voice, below were the top two suggestions that we heard from attendees.

Requests from Stakeholders

1). Agency specific outcomes: rather than aggregate data/outcomes for Statewide IAFT® consumers.

2). Elimination of the monthly requirement for the Admission Criteria checklist.

RRFF will explore the possibility to distribute data and outcomes on an agency specific basis in future Quarterly Reports.

RRFF has explored the data implications of removing the monthly reporting of the ACC and has decided to remove the monthly requirement/data reporting. Please complete in CCW the ACC at time of admission and discharge.

In addition, RRFF has determined from Provider feedback, that ITR uploading is cumbersome therefore, this is no longer required in CCW. Please upload only the approved initial MCO Authorization into CCW.

CCW Data Base Updates

Referral Search

Below are brief definitions for the new filters in CCW for Referral searches. You can also locate these within CCW by clicking on the ⑦ next to the filter box.

Referral Status:

All = No filter applied, displays all available referrals

Placed = Displays all referrals with Placement date entered

IAFT Placed = Displays all referrals with IAFT® Placement date entered. Youth ID starts with "M" or "I"

TFC Placed = Displays all referrals with TFC placement date entered. Youth ID starts with "R"

Unplaced = Displays all referrals that are available for placement.

Priority = Displays all referrals that are marked as a priority referral by the MCO

Discharged = Displays all referrals with a Discharge date entered.
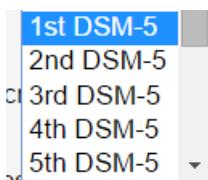

New Referral = Displays all referrals that require an initial response from the network provider

Referral Type: Displays referrals with correlating referral type marked on the referral intake page

MCO: Filters referrals by MCO.

Diagnoses

The Diagnosis screen changes have been made to align with DSM 5 and removal of the multiaxial system. You can simply list any disorders or conditions previously coded on Axes 1-5 together and in order of clinical priority or focus based on most current CCA or other clinical assessment.

1st DSM-5
2nd DSM-5
3rd DSM-5
4th DSM-5
5th DSM-5

When entering diagnoses please scroll to the end of the dropdown list and choose/rank as seen in the clip above. Please begin to change this information on any new referrals/ admissions or clinical updates for existing consumers as possible within your agency workflow. Any conditions or comments not recorded within the DSM codes, please utilize the Narrative box to add additional information. Further screen changes may occur over time and we will pass on information.

Give yourself the gift of Self Care

in the 2016 year!

A new or renewed commitment to **Self Care** for all those in helping professions is important and vital in the prevention of burnout and compassion fatigue. We can't serve others from an empty vessel. During this holiday season take some time to give yourself the gift of a new commitment to focus on you and other team members in the 2016 year!

Check out these resources below to help develop your Self care plan or share with your agency staff. Discussion topics during supervision are a great way to hold each other accountable and offer mutual support. Just click on the links below.
